**R&G RACE OF THE SOUTH - THRUXTON – 11.12.13 AUGUST 2023 - Bulletin 2 – Race Direction info**

**COURSE CUTTING/TRACK LIMITS – TURN 12/13/14 CHICANE**

GREEN painted areas which are identified as being out of track limits (\* see special note below regarding TURN 13). Standard penalties for exceeding track limits are; **during practice/qualifying:** Cancellation of the lap time that the transgression occurred. **During racing:** Race Direction will impose a time or position penalty if it is judged that any advantage has been gained – special attention will be applied to track limits on the last lap of a race.

The **short cut** sector for Thruxton is defined between I3 – I1, refer to the diagram here. **The principle is that a rider making a mistake and short-cutting the track should lose time compared to staying on track.**

Riders exceeding track limits or cutting the track in practice and qualifying will have the lap time cancelled . Riders **cutting** the track in the race must be at least 1 second slower a than their average normal time for that sector (“normal” = not the first lap, or any other irregular lap eg. due to changing conditions or an incident).

If the rider is not at least 1 second slower, a Long Lap equivalent time penalty will be imposed (2 seconds).

Any time penalties will be published on the timing monitor and to the track on the startline LED display.

Any position gained by short-cutting the track must be given back immediately.

If a rider is forced off track by another rider then only advantage gained (position or time gained) will be considered.

**In qualifying, a course cut or track limit in the final chicane followed by a FL PB or Best Speed and/or an improved Sector 1 (FL – I1) time will result in both laps being cancelled.**

**COURSE CUT AT T12/13/14 ON THE FINAL LAP OF THE RACE**

The time penalty for a **Course Cut** at T12/13/14 on the last lap of the race will be 0.5 seconds based on the final timing sector of the track (i3 – Finish Line).

That is; a rider cutting the course at T12/13/14 on the last lap of the race must lose at least 0.5 seconds compared to their average normal final sector time. If the rider does not lose at least 0.5 seconds, a time penalty of 1 second will be imposed.

The usual rules apply for a rider forced off track by another rider, only time or position gained will be considered in any penalty.

**TRACK LIMITS (RACE) – GENERAL PROTOCOL**

After three track limits breaches the black/white diagonal flag/panels with riders number will be shown (rider warning).

If a further two track limits breaches occur – a long lap equivalent time penalty (2 secs) will be prescribed.

### **TRACK LIMITS/COURSE CUT – TURN 13**

The yellow painted strip on the inside of T13 behind the red/white/blue useable kerb will be considered as Track Limits, the green area further inside that will be considered as a Course Cut.

**GREEN AREA – COURSE CUT**

**YELLOW AREA – TRACK LIMITS**

**KERB – USEABLE (NO PENALTY)**

### **TRACK LIMITS – TURN 10**

The flat kerb on the exit of Turn 10 (Church). The green painted areas are considered outside of track limits. A painted white section indicates the end of the useable kerb. Behind the flat kerb is a deterrent kerb painted red (not shown here).

### **USE OF GREEN PAINTED KERB - TURN 5 & 6**

Use of the flat kerb riders left at T5 exit and riders right at T6 apex is **not** considered to be an advantage.

### **PIT LANE RIDE-THROUGH EQUIVALENT TIME PENALTY**

At this venue it is established as 15 seconds.

### **CHANGE OF TYRES IN RED FLAGGED DRY RACES (E1.10)**

**In the Bennetts BSB, Quattro Group Supersport/GP2, Pirelli National Superstock (1000/1100cc), Pirelli National Junior Superstock (600) classes** – in the event of an interrupted race, at any stage, tyres may be changed irrespective of the race status (dry/wet), in this instance only, tyres used following an interruption do not require tyre identification stickers.

### **TYRES**

Please refer to the Pirelli information bulletin within FIs regarding specific tyre material available for this event for the *Bennetts BSB* class and exceptions to tyre sticker requirements for the *Pirelli National Superstock class (Sunday warm up)* and *BMW F900 (Free Practice)*.

**LOCATION OF PENALTY BOARDS AND REMOVAL OF LONG LAP PENALTY SECTION.**

Please note that for safety reasons there is no Long Lap Penalty section. In the event of a penalty being prescribed for example a ride through, a time penalty or a change of position penalty, these will be displayed on the finish line LED display and/or manual boards at the finish line. Long lap equivalent time penalty - 2 seconds.

Thank you for your attention.

**2023 CONTROL TYRES (MCRCB REGULATION G 3.28.16)**

Updated 07/08/23 - in respect of BSS/GP2 and STK qualifying format for Round 7 - THRUXTON.

- a) An envelope, with the relevant stickers in it, will be provided for each rider.
- b) The envelope will contain stickers for both the front and rear tyres, the FRONT stickers having WHITE numbers and the REAR having BLACK numbers.
- c) The stickers MUST be applied to the relevant tyre wall on the **right hand side**.
- d) The clear backing sheet MUST be removed after the sticker has been fixed on the tyre.
- e) It is not necessary to remove stickers from previous rounds.
- f) A tyre control area will operate at the pit exit and the rider must slow to walking pace to enable the team to confirm that the correctly coloured stickers are in place on both tyres and no machine will be allowed to join the track without them being in place. Failure to slow sufficiently to allow this check to be carried out will lead to the rider being black-flagged.
- g) Random checks will be carried out during each session, and in parc ferme, to confirm that the stickers used are those that were allocated to that rider.
- h) All tyres purchased at the meeting for use in the race will have manufacturers markings that identify them to the tyre control team and Pirelli staff.
- i) For the race, checks will be carried out both on the grid and in parc ferme to confirm that only tyres purchased at the meeting are used.
- j) Tyre pressure checks will be carried out on the starting grid (BSB, BSS, NSTK1000) – see MCRCB Regulation 3.28.17.
- k) In the event of a red flagged (dry) race – only if the Race Director issues the message “Tyre Changes Authorised” or the Chief Technical Official authorizes a specific tyre change due to a verifiable damaged or contaminated tyre, the new dry tyre(s) can be “unstickered”.
